EDUCATION

Vishwakarma Institute of Technology

B Tech in Computer Science and Engineering

H B Girme College of Science, Commerce and Arts

Secondary Education

Pune, Maharashtra, India

August 2024 - Present

Pune, Maharashtra, India

August 2022 - March 2024

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript

Web Technologies: HTML, CSS, React.js, Express.js, Node.js

Libraries and Tools: Hono.js, Zod, Flet, Streamlit, Tkinter, Spacy, Numpy, Git, Github

Databases: MongoDB, PostgreSQL, Prisma

AI/ML APIs: Gemini API, AssemblyAI, Hugging Face

Other Technologies: Arduino, Excel, Figma, Power Bi, Tableau, Postman

WORK EXPERIENCE

Hackathon Winner

CSI Codezilla, Maharashtra, India

January 2025

- Won Track 3 at CSI Codezilla 2025 Hackathon for Speaker Separation and Transcription System.
- Used AssemblyAI API for real-time speech separation and transcription.
- Optimized for accuracy, speed, and memory efficiency.

Open Source Contributor

SWOC 5.0 — Open Source Contributor

January 2025 - March 2025

- Contributed to web development and automation repositories.
- Ranked 149 out of 337 successful contributors among 50,000+ registered participants.

Open Source Contributor

GsSoc 2025 — Open Source Contributor

July 2025 - Present

- Improved project documentation and implemented new features, enhancing usability/performance.
- Contributed to 8 open source repositories with 5 pull requests merged.

Campus Ambassador

Campus Ambassador — GirlScript Summer of Code 2025

June 2025 - Present

- Promoted program awareness among 200 students; onboarded 140+ new contributors.
- Organized sessions on open-source contribution, increasing participation.

KEY TECHNOLOGY PROJECTS

- **IOT Based Medicine Dispenser**, Developed an IoT-based medicine dispenser using Arduino Uno and Flet. Integrated a digital IR sensor to track pill dispensing. [GitHub](#)
- **Speaker Separation and Transcription Web App**, Built a web-based system to separate and identify speakers in audio files. Implemented real-time transcription with enhanced speaker differentiation. Won Track 3 in Codezilla 2025 Hackathon. [Github](#)
- **Study Buddy – Academic Companion**, Developed a comprehensive study management tool using Python. Features include To-Do List, Grade and SGPA Calculator, Physics Solver, and Unit Converter. Implemented task tracking, academic performance calculation, and problem-solving tools. [GitHub](#)
- **Text Summarizer Web App**, Built a text summarization tool using spaCy, HTML, CSS. Developed a web application to generate concise summaries from large text inputs or uploaded files. Utilized spaCy for NLP-based text processing and summarization. Designed a simple and user-friendly UI for easy interaction. [Github](#)
- **IdeaSpark** - AI-Powered Project Idea Generator, Developed an AI-powered platform using the Gemini API to generate project ideas based on selected languages, domains, and hardware. Built using HTML, CSS, JavaScript, Express.js, PostgreSQL, and Prisma. Enabled idea saving, regeneration, and export. [Github](#)
- **GST Billing Software**, Created a standalone GST billing web app using HTML, CSS, and JavaScript with localStorage. Enables invoice generation, GST calculation, and product/customer entry — all handled on the client side with a smooth and functional UI. [Github](#)

DATA VISUALIZATION PROJECTS

- **HR Analytics Dashboard – Power BI** - Created an interactive HR analytics dashboard using Power BI to visualize key metrics such as attrition, employee satisfaction, department-wise performance, and diversity. Used slicers for dynamic filtering. Designed for actionable insights and executive decision-making.
- **Data Science Job Salaries Dashboard – Tableau** - Built an interactive dashboard analyzing global Data Science job salaries across roles, locations, and experience levels. Integrated filters and parameters to explore trends, averages, and regional pay gaps. Emphasized UX design and storytelling with data.

EXTRACURRICULAR ACTIVITIES

- **Web Development Member** — Developer Student Club (DSC) - October 2024 - May 2025
Learning Full Stack Web Development through workshops and projects.
- **Database Team Member** in Saarthi - November 2024 - May 2025
Implementing a QR-based entry system for automated club records.
- **Website Management Member** in VEDC (VIT Entrepreneurship Development Cell) - November 2024 - May 2025
Maintaining and updating the official VEDC website.
